Tumble Book Library

TumbleBooks offers animated and narrated story books, narrated eBooks, traditional eBooks and graphic novels for young kids. Story books are created by taking existing pictures, adding animation, sound, music and narration to produce an electronic picture book which you can read or have read to you.

All of the books, games and videos on TumbleBooks are available exclusively through streaming. Meaning the program will never take up any space on your browser or device. You need a continuous internet connection in order to access and use content on TumbleBooks.

Mobile App

The app will let you continue to stream your favourite books, videos and games. Please note that it does not allow you to download any of the content for offline use.

Mobile app is available on

- Apple App Store (iPhone/iPad)
 - iOS 9.1 or higher

- Google Play Store (Android devices)
 - Android 4.1 and higher

Story Books

These animated and narrated books bring the illustrations to life. You may get a shark wagging its tail, a star sparkling or maybe even a bird flying! Users have the option to set the page turning feature to automatic or manual.

Read-Alongs & eBooks

Read-alongs and eBooks offer the digital version of the book without animation. Read-alongs offer a narration feature that the traditional eBooks do not. Read-alongs & eBooks have chapter menus, bookmarks, notes, and the ability to change the font type, size and colour to make reading easier.

Graphic Novels

Graphic novels offer digital illustrations and text without animation. Turn the pages by scrolling down the screen and then click the arrows on the top left and right to go to the next chapter.

Videos & Games

Enjoy short 2-5 minute videos from National Geographic on different topics. Simply click **Play Video** and enjoy!

Have fun with some quick games and puzzles under the **Puzzles & Games** tab. Once you find the game you want, select **Play Game!**
